SCORE BRIEF ADVANTAGE

Late this afternoon he straights waters scored a brief advantage.
They broke a newly-formed gorge above the first gorge, and swept aftanic mass in a grand assault on the first gorge. There was a clashing of colossal forces and rumblings and creakings.

The first gorge held. The grand battering ram became a reinforcement. Tonight a cold wave is comenting the two masses info one huge iceberg, ten miles long, and apparently impregnable.

The checked waters are spilling their fury over the lowlands far and wide, while the inhabitants are fleeing to higher ground, many in their haste abandoning all their property.

When School is Out-HERMOSA BEACH

School days are nearing the big recess. And the sun bully is coming closer and closer.

Those young prisoners of learning are dreaming already of the golden days of freedom. Their plastic minds long to forget the narrow confines of printed page and yearn for Nature's open placesto engage in the joyous occupation

Where will they play this year? that boy of yours whose ambition it is to some day lead the varsity team—that girl whose birthright is the beauty and grace born of perfect health and normal development?

Don't neglect them, Daddy. They are YOU and HER when you have both passed out of the picture. The torch of life that was handed to you, they will carry on as you hand it to them. See they are able to carry it high.

Hermosa's beach is heaven to growing children. Wind and sea -sun and sand—these are the transformers—the body builders the mind strengtheners. They perform-miracles.

Our beach is safe. The automobile speeder cannot reach it. It knows no idleness. There is no artificial excitement no sighing for nickels to spend no noxious suggestions. Upon such an open shore, where the air is of the rarest purity, where the sun shines and waters sparkle, there is nothing to be afraid

Disease, weakness, sin these are born of restraint, of darkness and of idleness. Environment means everything to the child.

Bring your play hungry children and their tired mother to the place where Nature smiles in her kindliest way. Come and live with us all the year and enjoy life to the full. Come for a season and go back to your interior home with a renewed family. Come week ends or even occasionally. If you give week ends or even occasionally. If you give your little folks one day at Hermosa Beach, they will remember it happily for months after.

Our Surf and Sand Club will be a child's paradise. In addition to beach pleasures, there is to be an indoor pool with warmed water and a swimming instructor. And way up on the roof is to be a big glass inclosed play room where the youngsters will be just as much at home as their elders on the jour wonderful floors below.

The Surf and Sand is a family Club-because family folks are the kind that make the world go round-the kind worth

MOBILE (Ala.) March 22. — St. Louis Browns as they stand today, are the best ball team, the most advanced in training and have the finest spirit of any American League outfit I have seen.

In spite of the fact that they mourn the absence of the star of the team, and face the possibility that Sisier, greatest find of the last generation, may be jost to them totally or in part, the Browns are not the collapsed hope that some of the experts think them to be. They have more basis to hope for a championship this season than they had last. For this year it is based upon a reasonable belief that the pitching staff has come through at last.

But for the fact that Sisier has been laid up with grip and is in poor shape, the Browns would look to be a certain one, two, three ball team with a logical hope of a pennant. most advanced in training and

ball team with a logical stypensian.

The Browns are a real ball team with the finest kind of spirit, and they are far enough along in condition to tell that they are going to be a vital element in this race, with or without Sisier.

pace in stolen bases with sixty-three. He remained at first for Seattle the following season. Last year he started with the Indiana, but had the hard luck to break a leg, and before the end of the season was sold to Sacramento. Murphy's injury apparently bothers him not in the least. In Sacramento he played every position on the team with exception of the hattery points. At the close of the race he was sold to Vernon, where he says he hopes to live happily ever afterward.

IN GOOD SHAPE

The condition of the outfielders particularly impresses me. St. Louis climate is a heavy handican to teams located there, especially when they have long stays at home in August and September. Last fail Tobin and Williams both wilted badly toward the finish. This year Williams looks bettef and is hitting more cleanly and harder than ever, while Tobin is as fast and is throwing as well as he ever did.

The team is still developing instead of showing signs of going back, and it has confidence in its pitchers. This is a near-great ball club, but until Sisier's exact condition is known it cannot be placed definitely.

The State's case against William

the Communist party, which had

He testified ander examination by Frank P. Spring Lamb Shipments to East Are Huge

HANFORD, March 23.—The shipment of forty carloads of spring lambs today from Helm is

the third full trainload within a week to leave this district for

week to leave this district for eastern markets. The first train of thirty cars, shipped from Lethent on the 15th inst, represented the first spring lamb shipment from California. A second train of thirty cars was shipped from Coalings on the 21st inst. A fourth shipment of forty-five cars will go eastward from Lethent the 30th inst.

As each ear contains 160 lambs, the 145 carloads represent in these shipments carry a total of 23,200 lambs. Owing to the mild winter here, early lambing was possible, and these shipments will reach the big Chicago market ahead of the earliest from Idaho, Nebraska and other sheep-raising States.

These extensive early sales will materially relieve the situation of shortage of range feed, which is facing the herders by reason of deficient rainfall this spring.

"Republicans can ask for nothing better than that issue," she concluded.

Mrs. H. C. Garrett spoke for national enforcement of prohibition and said that if women had a larger share in the enforcement better results would be attained. She cited the work of Mrs. Mabel Walker. Mrs. Garrett made a further, plea that one of the two new justices of the peace to be elected to make the seven that are no led in the Police Court of the city should be a woman.

Great-grandmother Fedwell smiled. She was thinking of the many times when Mother Eatums had turned to her own daughter-in-law for advice in regard to dietary matters, but being a wise old lady she said nothing about it.

"I'll just suggest to Florence that she help Mother Eatums plan Eleanor's diet and I think both the little mother am the baby will get along famously," she thought to herself.

"Elearor is having such a lot of conflicting advice about her diet, poor darling, that she is 'all mixed up about what to eat,' as she expresses it," said Mother Eatums ruefully. "Granny, will you and Florence Fedwell put your heads together and help me advise her?"

But now it is all explained. A certain Frank Courtney, Englishman, banker and member of the International Bank of Hongkong, China, is on his way to Los Angeles to claim Miss Ridgeway for his bridge.

Wife's Charges;
Is Given Decree

Though Mrs. Sadie R. Wober and Herbert Armstrong both testified emphatically there was nothing improper in their acquaintanceship, Judge Mahon in Superior Court awarded a divorce yesterday to Edwin Hamanuel Weber, who had named Armstrong as co-respondent in a cross-complaint.

Mrs. Wober brought the original suit, asserting cruelty. She declared her husband struck her, locked her in a closet several hours, chased her, insulted her in the presence of her friends, and was unreasonably jealous. She asserted Weber was interested in a concern known as the Tracter Sales Company and made \$1000 a month.

Weber denied her charges, and asserted that on the contrary it was she who was violent and abusive. She dared him to strike her, he said, but he refrained. Walter Haas was the husband's attorney.
